SABBEX

SOUTH AFRICAN BOATBUILDERS EXPORT COUNCIL

The South African Boatbuilders Export Council (SABBEX) is a national export council for the export promotion & export development of the boatbuilding industry, within the framework of the Department of Trade & Industry. South Africa is globally renowned for its award-winning multihulls, custom and semi-custom sailing catamarans, monohulls, power boats, commercial vessels, sport fishing boats and inflatables. SABBEX aims to promote South Africa as a **globally competitive and reputable boatbuilding nation**.

SABBEX MEMBERSHIP

FULL MEMBERSHIP

Manufacturing and exporting boats, and participating in the SABBEX Accreditation programme.

AFFILIATED MEMBERSHIP

Manufacturing associated products for export or providing export related services.

EMERGING EXPORTER MEMBERSHIP

New and existing companies manufacturing for less than 2 years;
New and existing companies exporting for less than 2 years;
Companies with reinstated membership;
(at discretion of SABBEX Board).

BENEFITS OF SABBEX MEMBERSHIP

- Create consumer confidence by being associated with an export council supported by the **dti**
- Access to international market research
- Assistance with international exhibitions, trade missions and international marketing

- Greater access to relevant government departments
- Assist the development of exporters to become fully accredited members
- Address stumbling blocks to grow international business
- Mentorship for new exporters
- Ensure the interests of SA manufacturers are represented with industry associations
- Facilitate participation in **dti** export development events
- Assist with applications and claims for **dti** export incentives
- Active lobbying with Government
- Facilitate networking amongst members
- Access to industry research and export figures
- Company listing on the SABBEX website and in the industry directory for distribution worldwide
- Opportunity to receive international export enquiries
- Assistance with export finance programmes and mechanisms offered by the **dti** and ECIC

ACCREDITATION

SABBEX has an industry Code of Conduct, which encourages that minimum standards are adhered to in eleven business aspects, and also has a developmental focus to encourage companies to achieve international best practice. Companies are audited in matters including warranty procedure, owners' manuals, customer service and international specifications.

It should be noted that the term "accredited" does not imply any guarantee of performance on the part of SABBEX. If a member fails to comply with the minimum standards, the council can suspend or terminate membership, but recourse will be in terms of the contract between client and builder.

SABBEX AIMS TO PROMOTE SOUTH AFRICA AS A GLOBALLY COMPETITIVE AND REPUTABLE BOATBUILDING NATION.

MIA SA

MARINE INDUSTRY ASSOCIATION OF SOUTH AFRICA

www.miasa.co.za

CONNECTING AND DEVELOPING THE BOATING INDUSTRY IN SOUTH AFRICA

MIASA is a trade association linking companies across South Africa to represent and grow the boating and marine manufacturing industry. MIASA plays a vital role in liaising between industry, government and other stakeholders to promote the industry and address challenges and blockages. It seeks to represent the entire industry value chain from manufacturers and retailers to consumer and business services both nationally and internationally.

MIASA is a member of the International Council of Marine Industry Associations and it works closely with the South African Boat Builders Export Council (SABBEX).

HOW TO BECOME A MEMBER

Visit the MIASA website at www.miasa.co.za and download a membership application form, or contact us on info@miasa.co.za and request a form.

Membership runs from January to December each year. Once we receive your application and it is approved, we will issue you with an invoice for your annual membership fee (pro-rata should you join in the middle of the year). As a member you receive an annual member's certificate and membership sticker to display at your premises. Membership is tiered to accommodate different sized companies:

Ordinary Membership	<5m turnover per annum R5m – R35m turnover per annum >R35m turnover per annum
Emerging Membership	<R1m turnover per annum (Nominated by an existing MIASA member)
Association Membership	For Institutions

BENEFITS OF MEMBERSHIP

DOCUMENTATION

Members have access to **documents** and **research** that MIASA has compiled for member's exclusive use.

FREE INDUSTRY GUIDE LISTING

Members receive a free listing in the **annual** Boating Guide. 2 500 copies are printed annually and **distributed locally and internationally**.

INFORMATION

Receive information in a number of ways:

- Fast mail updates on a regular basis via **e mail**
- Monthly **newsletter** with all the latest developments
- An active Facebook profile with **links** to member activities and news
- The MIASA **website** with member listings, news and events

Members also benefit from the services of the MIASA staff who provide information and guidance specific to the member's needs such as CE certification.

REPRESENTATION

Members benefit from MIASA's ongoing engagement with a number of government departments and initiatives. Working with these departments, MIASA has been able to deliver increased business opportunities and to minimize their regulatory costs. Some of our successes to date include the rescinding of a luxury tax on boats, rebates on certain imported components and materials and assisting with customs and immigration issues for visiting yachts. Members benefit from a direct line of contact with SAMSA, the International Council of Marine Industry Associations (ICOMIA) and the International Marine Certification Institute (IMCI).

NETWORKING

MIASA provides a valuable network of connections both within industry and government. This is particularly useful in addressing blockages and problems with regulatory and policy issues. Members can attend regular events, functions and seminars and use the opportunity to network with other MIASA members.

PARTNERSHIPS

Members receive business support through MIASA participation in sector groups. MIASA works with the following groups and others:

- South African Boat Builders Export Council
- SA Institute of Marine Engineering and Naval Architecture
- Air and Maritime Defence Association
- South African Oil and Gas Alliance
- Trade and Investment KZN
- Ethekwini Maritime Cluster
- Eastern Cape Maritime Cluster

TRAINING AND DEVELOPMENT

MIASA has a dedicated Skills Advisory Committee that works on developing qualifications, short courses and training for the industry. A close partnership with the Boat Building Academy and other training providers ensures industry relevance to training provision. Other benefits:

- Assistance with getting back your Skills Development Levy
- Help with grant applications to fund training

WEBSITE

The MIASA Website is visited by over 1000 unique visitors a month. All members are listed on the website in their appropriate category and the member's website is linked to the listing.

For more information visit the website www.miasa.co.za or e-mail info@miasa.co.za.

SERIAL NO

The Marine Industry Association of South Africa (MIASA) administer a boat builders plate for small vessels in South Africa. This industry-led initiative is a welcome development for boat users and boat builders alike. It aims to encourage good standards of construction in the industry and to build consumer confidence in South African built boats.

The Builders Plate is a declaration of conformity to a technical build specification, which is adjudicated and approved by the MIASA Technical Committee. The builder submits build details per model of boat, along with a copy of the warranty, trial and test certificates and SAMS Buoyancy Certificate to MIASA. The builder is required to indicate the particular use of the boat, for example,

The vessel is a bass fishing boat intended to operate on dams and rivers. It is designed in accordance with SANS 12215 Part 5 for Category D vessels and a maximum speed of 20 knots.

The builder must also specify the maximum powering of the vessel and the laden and unladen weight applicable for the SAMS category of operation for the boat.

Once approved by the MIASA Technical Committee as being of appropriate construction for intended use, MIASA issues a Builders Plate with a unique serial number. The boat builder completes the other information and the plate is fitted to the inside of the transom in a clearly visible position. MIASA holds all the records relating to the build specification and intended use of the boat on file. This allows MIASA to keep a record of boats manufactured and holds builders accountable to a consistent lay-up specification for their boats. It is hoped, in time, the boating public will view the Builder's Plate as a sign of credibility, as has been demonstrated in other countries.

GET INTO BOATING

If you are new to boating and would like to give it a try, there are a number of **yacht/sailing/boating clubs** across the country, at our major dams, rivers and along our coastline. Many clubs offer entry level sailing programs, and some offer high performance sailing programmes.

To see a list of active clubs, go to www.sailing.org.za/clubs

For an internationally recognised sailing certificate course, especially for a career as international crew, there are a number of sailing academies clustered around Cape Town, Durban and the Garden Route, for example: Atlantic Yachting, Ocean Sailing Academy, Offshore Sailing Academy, Southern Yachting, Two Oceans Maritime Academy and Yachtmaster Sailing School among many others.

In South Africa you must have a licence to drive your boat if it is motorised over 15hp. There are **different classes of skipper's tickets** depending on where and when you want to use your boat. Contact the South African Maritime Safety Authority (SAMSA) office in your region for a list of accredited training providers. You will need to do a theory and practical component.

If you want to buy a boat, or to get more of a feel for what boating involves, there are 3 national boat shows you could attend:

Durban Boat Show in July

www.durbanboatshow.co.za

Johannesburg Boat Show in August

www.johannesburgboatshow.co.za

Cape Town Boat Show in October

www.boatshow.co.za

Your boat will have to have a Certificate of Fitness (COF), or a Local General Safety Certificate (LGSC) for a commercial operation. To get a COF your vessel must be inspected by a "SAMSA approved Safety Surveyor". To get a LGSC, your vessel must be registered by SAMSA and surveyed by a SAMSA Safety Surveyor. You will also need to decide what category of COF you want for your boat. COFs and LGSCs are only valid for one year from the date of the safety inspection. Safety is paramount in boating. Keep your paperwork with you when boating, just as you keep your car licence and driver's licence when you drive your car.

Now go out there and safely enjoy yourself on South Africa's breath-taking waterscapes. Boating is for everyone! **For more information or advice contact MIASA at info@miasa.co.za**

...we Certify the best.

VISION OF THE SOUTH AFRICAN MARITIME SAFETY AUTHORITY (SAMSA)

CAREERS IN THE BOATBUILDING INDUSTRY

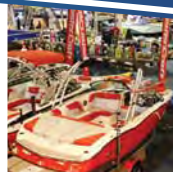

The boat building industry in South Africa is a dynamic and exciting sector with a wide range of occupations and careers on offer. With on-going technological developments and innovation in boat design and construction methods, it is a progressive industry where you can combine your love of boats with a rewarding career. Leisure boating is growing and South Africa needs skilled and dedicated staff to meet the rigorous demand of construction to international standards.

There are various ways to enter the boat building industry and pursue your career. You can either enter a formal boat building training programme, or you can train in a related career and apply for a position in a boat building yard where you can adapt your skills to the requirements of the marine sector.

VISION YACHTS: Elegance that's more than skin deep. The state-of-the-art technologies that go into Vision Yachts we build, go a lot deeper than their stately, head-turning, styling. Extensive testing and research combined with the latest composite engineering expertise make our *450 Signature Catamarans* as safe, modern, technologically advanced and cutting edge as you can get. The *Vision 450 Signature* catamaran has an industry leading 5 year limited warrantee. The result is blue water sailing catamaran that's incredibly strong, fast, spacious and forgiving, with the kind of all-round abilities, easy to sail, appeal, level of finish, attention to detail and performance that you would never expect from a catamaran in its size and class.

Main Products: Vision 450 Signature Catamaran Yacht
